

Designed with depth to complement
Your Lifestyle

Witness a living space that has been set out to create a perfect blend between indoor and outdoor areas. Views are critical to this aesthetic – and, since the Signature Residences has been developed as an island surrounded by the golf course, it is certainly able to deliver on this score.

SERENGETI ESTATES
FORGED BY NATURE

The only thing that's overlooked at
The Signature Residences is the golf course

Welcome to The Signature Residences

Each cluster is completely open plan, creating a sense of light and space. Huge sliding doors open the space further still, dissolving the boundaries between indoors and outdoors, so that homeowners feel completely at one with nature.

Purchasers are able to choose between four unit types, with single- and double-storey options. All homes measure 218-320m², and in addition to double garages, feature space to park a golf cart.

The Signature Residences has been designed as an island in the middle of our golf course. Wherever homeowners look, they are treated to unsurpassed views over the first, second and tenth hole.
